FYI – Toni’s response. Also, wound Antony be the ORD contact he mentions? I’ll send a similar request to Tracy.

Subject: PFAS Question

Hi Toni,

Per the NDAA, TRI must evaluate the following PFAS:

“(O) a perfluoroalkyl and polyfluoroalkyl substance or class of perfluoroalkyl or polyfluoroalkyl substances other than the chemicals described in subparagraphs (A)

through (N) that is used to manufacture fluorinated polymers, as determined by the Administrator.”

Do you know of any list of PFAS that are used to manufacture fluorinated polymers? If not, do you know how we might go about making such a list.

Thanks.
Dan
